

31st August 2021  
nmodes company limited,  
Toronto, ON.

Dear sir/madam,

RE: Application for a Software Development Internship at nmodes company.

My name is Grace Maina, an entry-level software developer. I am writing to apply for a software development internship at nmodes Limited. I came across nmodes Limited on indeed I later on interacted with your website and I was motivated by how you specialized in making conversational AI solutions (chatbots, voice bots, virtual assistants) for sales and customer service processes.

I have been working on Red-Swift, and with this project, I have been able to conduct desk research as well as a pilot study, to build a system that will enable blood donor organizations to easily identify donors. It would be a privilege to work and to contribute my skills to the advancement of nmodes' Limited mission.

Please take a moment to review my attached resume. My email is [mainagracewacheke@gmail.com](mailto:mainagracewacheke@gmail.com) and my phone number is +254 114509901. I look forward to hearing from you.

Yours Sincerely,  
Grace Maina.
